

Commercial HVAC

From individual commercial spaces to a complete building, discuss your cooling, ventilation and operating requirements with Uttam Electronics. We help bring equipment selection, installation planning and service requirements into one clear project scope.

Explore Your HVAC Options

VRF Systems

Discuss room-by-room control, indoor unit combinations, outdoor unit placement and piping routes.

Ductable Air Conditioning

Plan concealed equipment, duct routes, grille positions and maintenance access with your ceiling layout.

Cassette Air Conditioning

Compare ceiling cassette arrangements alongside drainage routes, service openings and room layout.

Air Handling Units

Bring your airflow, filtration, cooling and control requirements for equipment and installation review.

Chiller-Based Systems

Discuss the cooling plant, water distribution and air-side equipment as a coordinated project scope.

Fresh-Air & Ventilation Systems

Review intended occupancy and use so ventilation can be considered alongside comfort cooling.

Clean-Room HVAC

Share the required environmental criteria and consultant specification. Design, testing and validation responsibilities must be agreed for the project.

Centralised AC Systems

Coordinated cooling for commercial spaces

Discuss current availability, exact-model specifications and suitability with our team. Products, supply, installation and service inclusions are confirmed in the quotation.

Guidance, service & next steps

Agree the responsibilities for each stage, including work by your civil, electrical and interior teams.

Site Assessment

Review plans, room use, equipment locations and access constraints.

System & Equipment Selection

Compare arrangements against the agreed project requirements.

Installation Coordination

Plan delivery, positioning and the sequence of site work.

Piping, Ducting & Drainage

Define materials, routes, quantities and interfaces in the quotation.

Testing & Commissioning

Agree start-up checks, records and handover scope for the selected system.

Maintenance & Repairs

Discuss ongoing visits, fault assessment and support for the installed equipment.

Support for your purchase

Commercial HVAC Maintenance - Request an AMC proposal for your equipment list and operating hours. Visit frequency, labour, consumables, parts, response arrangements and exclusions are specified in the agreement.

Warranty & Handover Clarity - Manufacturer equipment warranty and installation workmanship terms are separate. Ask for the applicable documents, commissioning requirements and exclusions before placing the order.

Before you enquire

- Building use, location, floor plans and project stage.
- Occupancy, operating hours, zoning needs and available electrical provision.

Please confirm price, availability, delivery, installation scope and applicable warranty or service terms before proceeding.
