

Washing Machines

Compare washing machines and washer-dryers for the loads you wash, the space you have and the way you prefer to dry. Uttam Electronics helps you look beyond capacity to the details that matter at home.

Explore Washing Machines & Drying Options

Front-Load Washing Machines

Compare programmes, door clearance, dimensions and the wash loads supported by each model.

Top-Load Washing Machines

Check lid-opening space, reach into the drum and the water requirements of your chosen model.

Semi-Automatic Washing Machines

Compare tub layout, manual handling, water arrangements and the space required for everyday use.

Washer-Dryers

Compare wash and dry capacities separately, along with programme times and the setup requirements.

Separate Dryer Enquiries

Ask about suitable options and current availability. Placement, ventilation or drainage needs depend on dryer type and model.

Compact-Space Laundry

Compare actual width and depth, hose clearance and door or lid movement before choosing a machine.

Larger-Load Washing

Check normal load size and programme limits, especially for bulky items, rather than relying on capacity alone.

Discuss current availability, exact-model specifications and suitability with our team. Products, supply, installation and service inclusions are confirmed in the quotation.

Guidance, service & next steps

Ask about delivery and setup coordination for your location in Nashik District. Timing, accessories, plumbing or electrical work and any charges will be confirmed before booking.

Capacity & Programme Guidance

Compare the machine against the clothes and load sizes you normally wash.

Installation Readiness

Check space, a level floor, water inlet, drain position and the required electrical point.

Delivery Coordination

Share your address, floor, lift access and any narrow delivery route.

Brand Setup Coordination

Confirm any manufacturer installation or demonstration process for the selected model.

Replacement & Exchange Enquiries

Discuss the existing machine and any confirmed collection or exchange arrangement.

Service Request Assistance

Share the model, serial number, invoice and issue to help coordinate manufacturer support.
